SUMMARY

Profile

- Accomplished, resourceful, results-driven, and highly motivated web developer with over 6 years of coding experience, including over 3 years of experience delivering projects in SaaS environments.
- Proven ability to build reusable components, core functionalities, and scalable solutions with the KISS philosophy, tailored to meet on-demand requirements.

Management Background

- Strong analytical, problem-solving, relationship-building, planning, mentoring, negotiation, teamwork, and communication skills.
- Experience with Agile methodologies, Git repositories, and cooperating with small teams through the software development lifecycle.

Technical Background

- Over 6 years of experience with PHP and JavaScript, integrating high-demand technologies like Laravel, Yii, and Vue. Proficient in other technologies like React and Angular, limited experience with Node and Express.
- Extensive experience with front-end development using Vue, React, Angular, HTML, CSS, Sass, BEM, and material libraries like Vuetify, PrimeVue, NgZorro, or PrimeReact. Skilled in translating Figma mockups into tailored, pixel-perfect views.
- Proficient in back-end development, including server management on Linux systems and API integration using RESTful APIs, limited experience with WebSockets and AWS.
- Proficient in SQL (PostgreSQL, MySQL), NoSQL (ElasticSearch, Redis), and Object-Oriented Programming.

Cover Letter

I am a Cuban web developer with more than 5 years of experience, specializing in PHP and JavaScript, with a primary focus on Laravel + Vue. My extensive background includes front-end and back-end development, skilled in HTML, CSS, Sass, BEM, Figma, RESTful APIs, SQL, OOP, and working within Agile teams.

I am currently based in Cuba and prefer remote jobs; however, I am open to relocation if needed. With a passion for coding and a desire to grow professionally, I am seeking opportunities that offer competitive compensation and the chance to develop within a collaborative and supportive environment.

SKILLS

- Frameworks:** Laravel, Yii, Vue, Angular, React, Node
- Languages:** PHP, JavaScript, SQL, Vanilla
- SQL:** PostgreSQL, MySQL/MariaDB
- No-SQL:** ElasticSearch, Redis
- Other Technologies:** Sass, HTML, CSS, JQuery, Vuex, Pinia, Inertia, Vuetify, PrimeVue, NgZorro, PrimeReact, i18n, Modules Federation, Storybook, Vollager, Vite, webpack, RESTful APIs, WebSockets, AWS, CI/CD, Nginx, OAuth2/JWT, Wordpress, WooCommerce, Elementor
- Methodologies:** SCRUM, Agile, BEM
- Platforms:** Jira, Zoho, Figma, GitHub, Microsoft Teams, Slack, Linux

EDUCATION & CERTIFICATION

- Computer Science Engineer, Bachelor Degree, University of Informatics Sciences at Havana.
- Web Responsive Design, Free Code Camp Course. ([link](#))

LANGUAGES

- **Spanish** – Native
- **English** – Fluent
